Report of the Associate Dean was approved by vote of the Council.
4. **Report from Dietrich School Graduate Council**  
   (Associate Dean Holger Hoock)  
   Associate Dean Holger Hoock reported that Graduate Council met on October 23, 2017.

Graduate Council received and accepted the responses to the TA/TF training practices reviews from the Departments of History and of Hispanic Languages and Literatures. A Subcommittee of Graduate Council has reviewed the TA/TF training practices in the Department of Physics and Astronomy and will report to the Council in due course.

Associate Dean Hoock introduced a discussion of the Dietrich School’s commitment to expanding research opportunities for undergraduates, by engaging graduate students as mentors, with a focus on the challenges of scaling such opportunities in the Humanities and Social Sciences. Council agreed to explore best practices and potentially scalable models and to make recommendations by the end of the academic year.

Associate Dean Hoock continues to engage with graduate students at his monthly Graduate Dean’s Hours, departmental fora, and A&S GSO gatherings, including on the tax-reform bill currently progressing through the U.S. Congress. The University urges students and faculty to consider expressing their opinions to their Senators and Representatives, especially about provisions that would impact Higher Education, such as the tax on graduate student tuition waivers. The website, [https://www.with.pitt.edu](https://www.with.pitt.edu), facilitates contacting elected officials.

Recognizing that intellectual vitality and diversity are inseparable, the Dietrich School fosters a diverse and inclusive environment in which graduate students thrive intellectually, professionally, and personally. In November 2017, Associate Dean Hoock co-authored with A&S GSO President Amber Griffith a response to the GSO’s student survey on climate and diversity undertaken earlier in this year. Working with ODI, Title IX, and the GSO, the Dietrich School will redouble efforts to maximize the visibility of existing resources regarding discrimination, bias incidents, and how to report discrimination or a bias incident. In addition to now mandatory Title IX training for incoming graduate students in the Dietrich School, and the further training resources available through the Title IX office, enhanced Title IX training for continuing students will be a high priority.

5. **Faculty Grants Committee vacancy**  
   The Faculty Grants Committee had two vacancies in the humanities division. Before council meeting, bios for candidates were electronically distributed to voting council members. The new members elected to the Faculty Grants Committee are Deane Root and Jennifer Josten.

6. **Discussion: Evaluating Faculty Teaching**  
   Council discussed how we might supplement student opinions of teaching and peer observations of classrooms as measures of teaching quality. Among the ideas presented were asking faculty to articulate their teaching philosophy, involvement in teaching programs such as those offered through the Center for Teaching and Learning or departmental sessions, and efforts at teaching innovation; and guidelines for peer classroom observations and reviews of course materials and syllabi.

7. **Discussion: Ambitions for New T/TS Faculty Positions in the Dietrich School**  
   Council discussed the desired characteristics of new T/TS faculty positions and made an addition which was incorporated. [The full list was circulated to all Dietrich School faculty and staff in the December 2017 Dietrich School Bulletin.]

8. **Other Business**  
   All voting faculty will receive a notice of the opportunity to nominate themselves for open positions on Dietrich School committees. This is part of the Dietrich School’s efforts to publicize opportunities for School leadership and the processes whereby School leadership positions are filled.

The meeting was adjourned at 3:50 p.m.
